

PLEDGE TO

STOP GENOCIDE

IN GAZA

Israel, enabled by the U.S., is committing genocide against Palestinians in Gaza. Tens of thousands have already been killed, many of them children. The entire population of over 2 million has been facing brutal violence, ethnic cleansing, starvation, homelessness, and disease due to Israel's all-out assault, blockade, and destruction of civilian infrastructure.

A landslide majority of U.S. voters support a ceasefire and an end to the genocidal war on Gaza, but politicians are taking marching orders from AIPAC and war profiteers, while supplying bombs, bullets, and diplomatic cover to the Israel government to carry out its agenda of genocide and ethnic cleansing.

**U.S. voters have the power and the duty to stop this!
