*"Reject the lesser
evil. It's time we
fight for the greater
good."*

- **Raise the minimum wage to \$25/hour**
- **Abolish student & medical debt**
- **End the endless wars & genocide**
- **Guaranteed affordable housing**
- **Healthcare, education, jobs & reproductive freedom as human rights**
- **Phase out fossil fuel production & transition to a green economy**

The political system is broken. The two parties of war and Wall Street are bought and paid for. Over 60% of us now say the two-party establishment has failed us and we need a party that serves the people. I'm running for president to offer a choice for the people outside the failed two-party system.
